DETAILED ACTION

1. Claims 1-40 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, 9-12, 16-19, 23-26, 30-33, 37, and 39, drawn to an overview of measuring and assessing culture of an organization, classified in class 705, subclass 10.
 - II. Claims 6-8, 13-15, 20-22, 27-29, 34-36, 38, and 40, drawn to the details of analyzing data collected as part of a cultural assessment process, including the calculation of averages, classified in class 705, subclass 10.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Invention I does not require the details of how collected data is analyzed (e.g., there is no mention of calculating averages). The subcombination has separate utility such as calculating scores associated with any type of survey.

Art Unit: 3623

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and vice-versa, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susanna M. Diaz whose telephone number is (571) 272-6733. The examiner can normally be reached on Monday-Friday, 10 am - 6 pm.
